In July 2025, 4,264 marriages were celebrated, 344 more (+8.8%) than in June 2025 and four more (+0.1%) than in July 2024.

In this press release, Statistics Portugal provides **preliminary data** on the number of deaths per month until August 2025², and the number of live births and marriages per month until July 2025, that occurred in national territory. The indicators published and analyzed are available on the Official Statistics Portal (www.ine.pt), with geographical breakdowns NUTS 2 and NUTS 3. The hyperlinks to these statistics can be found in the Excel file published together with this Press Release. The information is obtained from the Sistema Integrado do Registo e Identificação Civil (SIRIC) until September 5th, 2025.

¹ The natural balance is calculated based on the difference between the number of live births of mothers residing in Portugal and the number of deaths of residents in Portugal.

² After the release of mortality data for 2022 and considering the decrease of the impact of deaths due to COVID-19 on mortality, the analysis regarding the number of deaths per week was suspended. However, the release of indicators regarding the number of weekly deaths, by NUTS 3 breakdown, until the 35th week of 2025, and daily deaths, by NUTS 2 breakdown, until August 31st, 2025, is assured.

TECHNICAL NOTE

Statistics Portugal releases the **preliminary** monthly **numbers** of deaths, live births, and marriages based on the information registered in the Civil Register Offices until September 5th, 2025. Indicators on the preliminary monthly number of live births, deaths, and marriages, from January 2025 to July 2025, with geographical breakdowns up to NUTS 3, by NUTS 2024, as well as weekly number of deaths, until the 35th week 2025, by NUTS 3 and daily number of deaths, until August 31st, 2025, by NUTS 2 are made available on the Statistics Portugal Website.

Data are obtained from statistical operations of direct and exhaustive collection on live births, deaths and marriages in Portuguese territory using facts that are subject to compulsory civil registration (birth and death) in the Sistema Integrado do Registo e Identificação Civil (SIRIC).

In addition to administrative information obtained from Civil Register Offices, Statistics Portugal collects an additional set of variables identified as statistically pertinent to the National Statistic System (NSS) and the European Statistical System (EES). Data is recorded and sent electronically, in compliance with the requirements set out by Statistics Portugal and laid down in liaison with the Instituto de Registos e Notariado (IRN) and the Instituto de Gestão Financeira e Equipamentos da Justiça (IGFEJ).

CONCEPTS

Marriage: Contract signed by two persons that intend to start a family in full partnership and cohabitation according to legislation. Note: marriage can be held between persons from different or same sex.

Live birth: This is the complete expulsion or extraction from the mother's body, irrespective of the duration of the pregnancy, of a product of fertilization that, after separation, breathes or shows any other signs of life, such as a beating of the heart or umbilical cord or actual contraction of any muscle subject to voluntary movement, whether the umbilical cord has been severed and whether the placenta is retained.

Death: The permanent disappearance of vital functions.

Natural balance: The difference between the number of live births and the number of deaths during a given period.

Year-on-year change: The year-on-year change compares the level of a variable between the reference month and the same month of the previous year.
